Dear Sir:

Upon reviewing the above-identified patent, Patentee noted typographical errors which should be corrected.

In the Claims:

In the application as allowed, claims 17-18 correspond to claims 16-17 of the issued patent. Claims 17-18 of the allowed application which correspond to claims 16-17 of the issued patent are dependent system claims. Claims 17-18 were inadvertently written in the allowed application to depend from independent method claim 15. This is clearly an error as a system claim cannot depend from a method claim. Claims 17-18 of the allowed application which correspond to claims 16-17 of the issued patent should properly depend from claim 16 of the allowed application which corresponds to claim 22 of the issued patent as renumbered by the Examiner.

The patentee respectfully requests that claims 16-17 of the issued patent be corrected to depend from claim 22 of the issued patent. The patentee respectfully submits that these corrections are of a typographical nature, are made merely to rectify an obvious error, and that these corrections do not add any new matter or require reexamination of the claims.

Furthermore, in the application as allowed, claim 45 corresponds to claim 39 of the issued patent. Claim 45 of the allowed application which corresponds to claim 39 of the issued patent is a dependent system claim. Claim 45 was inadvertently written in the allowed application to depend from independent method claim 38. This is clearly an error as a system claim cannot depend from a method claim. Claim 45 of the application as allowed which corresponds to claim 39 of the issued patent should properly depend from claim 41 of the allowed application which corresponds to claim 42 of the issued patent as renumbered by the Examiner.

The patentee respectfully requests that claim 39 of the issued patent be corrected to depend from claim 42 of the issued patent. The patentee respectfully submits that this correction is of a typographical nature, is made merely to rectify an obvious error, and that this correction does not add any new matter or require reexamination of the claims.
